A frightful disaster overtook Santa Rosa yesterday. Just as the dawn was breaking, a mighty earthquake struck the city. It came with awful force and suddenness, hurling many people from their beds. Before the terrified community could realize what had happened, the entire business section was a mass of ruins, every residence had been more or less damaged, some being completely wrecked, and approximately half a hundred or more people had been swept into eternity. Flames immediately broke out in all directions and lent additional horror to the scene.
